

Technical Data Sheet

Divinol DSG Fluid

Product description

Divinol DSG Fluid is a dual clutch transmission fluid, which can be used in vehicles that require DCTF oils. The product can be used for the VW group vehicles with DCTF gearboxes from year 2003. Further applications are in Ford, Volvo, Chrysler, Peugeot, Citroen and Mitsubishi 6-speed DCTF driven cars from year 2007.

Divinol DSG Fluid offers the following advantages:

- longer, smooth shifting through improved friction characteristics
- improved load carrying capacity and therefore extended gear life
- better seal compatibility and therefore better gear and environmental protection
- Divinol DSG Fluid can be used to reduce variety of oils
